SESSION ONE a call to sustainability	SESSION TWO ecological principles	SESSION THREE food	SESSION FOUR water
SESSION FIVE community	SESSION SIX transport	SESSION SEVEN consumption & economy	SESSION EIGHT visions of sustainability

ABOUT THIS DISCUSSION COURSE

Sustainability saturates today’s marketing slogans: “sustainable” products, “sustainable” lifestyles, “sustainable” food, “sustainable” development – the term is used often and widely, and even contradictorily. The definitions and visions of sustainability differ with each culture in which it is envisioned, and with the agenda of each person or organization promoting it. Sustainability is a complex concept, but at its essence represents the hope for a healthy, just, and bright future for us all. Join our Choices for Sustainable Living discussion group to envision a sustainable world and how we can create it together.

BENEFITS OF THIS COURSE

- Explore the meaning of sustainability.
- Consider the ties between lifestyle choices and their impact on Earth.
- Learn about steps that can be taken to move toward ecologically sustainable organizations, lifestyles, and communities.

“I find that I think about things more — things I buy, things I eat, things I throw out. I see a much larger picture now, and I realize more than ever that I am a very important part of that picture.”

– ARCHITECT, PORTLAND, OREGON

ABOUT ECOCHALLENGE.ORG

Since 1993, Ecochallenge.org has provided ways for everyone to connect the dots between our actions, our impact, and our will to create significant environmental + social change. Together, we witness how our collective behavior connects with a better shared future.
