A GUIDE FOR
TEAM CAPTAINS

PLASTIC FREE
ecochallenge

JULY 1-31, 2020
ABOUT

Reducing plastic use and plastic pollution is as important as it ever was. But preventing the spread of COVID-19 requires that we sometimes have to adapt to changing regulations and the changing availability of plastic-free alternatives in order to prioritize public health and the safety of our communities and loved ones.

These challenges present the opportunity for creativity and innovation, and we hope you’ll approach Plastic Free Ecochallenge with that spirit of creation and adventure.

Plastic Free Ecochallenge is an online experience, where every participant selects actions to take, commits to those actions for 31 days, and works towards reducing their plastic consumption.

For all of July, connect with a global community of advocates and changemakers, each taking action however we can, in ways that are most relevant to us, to make this great spinning dot we call home a healthier, more equitable, more sustainable place. Welcome! We look forward to you and your team joining us.

plasticfree.ecochallenge.org/about/faqs
use these features to lead your team(s) through a successful and engaging ecochallenge!

1. create your own actions

Do you have an action for all of your team members to take? Within any category, you can create an action and give it a description, a reflection question, and links to resources for learning more.

2. assign actions

Want to make sure all of your teammates engage in the same action(s)? Assign actions from various categories to your team members.
3. manage multiple teams

Have multiple groups you’d like to engage in this Ecochallenge? Utilize the “Manage Multiple Teams” feature to oversee and guide all of your teams.

for instructions on using features, visit: plasticfree.ecochallenge.org/about/features
we have an array of graphics for you to use across social media.
